

The Art Of Pasta *Parte Della Pasta*

The premium pasta brand of Italy is now available for discerning chefs and restaurant operators who truly care about serving the very best.

The artisan pasta-making tradition of Italy's Pastificio Lenzi comes to the U.S. as a brand of genuine distinction. Its makers continue to innovate while remaining true to the authentic, Old-World methods, traditions and standards.

Pasta Lenzi is made with only the finest 100% premium durum wheat semolina. The semolina is selected for its high protein and gluten qualities which help the pasta to remain al dente (firm to the bite). The pasta is also made using bronze dies which give it a rough and porous texture improving the eating experience. Each variety, with its unique size and shape, is further distinguished by its al dente quality and ability to enfold any combination of sauces and ingredients you choose to serve your customers.
